

PRODUCT BROCHURE 2017

# DEVELOPED

BY EXPERTS

## Fire Rating

All our upholstered furniture complies with the requirements of industry specific fire ratings. Only combustion modified Ether foam is used in our products.

## Webbing

Elasticated interlocking webbing platforms are used to supplement and enhance the design comfort of all our products.

## Suspensions and Springs

These form the basis of the support systems of all chairs and are fully guaranteed. We use tested and proven systems that have stood the test of time in care home use over 25 years.

## Foams and Fillings

Foams and fillings are chosen for their unique properties in fulfilling your comfort and support.

## Supportive Cushioning

All cushions are specified for performance. Firm enough to stand up to constant use and soft enough to provide for your comfort.

## Frame Build & Quality

Frames are built to last. We specify the use of sustainable hardwoods in all of our products. Traditional use of glued doweling & mortice and tenon joints are commonplace throughout our designs. These are enhanced by the use of screws as the design dictates.

## Ergonomics and Sizing

From conception all our products have been developed with the ergonomic requirements in mind. Seat depths, back heights, variable seat heights and the angles of pitch on backs have all been considered in the initial design process.

# 10 Great Reasons to buy from

## 5 Year Guarantee

On frame and springs - All our chairs have Hardwood frames & the joints are Glued, Screwed & Dowelled,

## Unique Hygiene Platform

Our unique Hygiene Platform, forms a containment area that prevents the inside of the chair being contaminated by liquid ingress, resulting in a longer lasting piece of furniture.

## Anti M.R.S.A. Lacquer as Std

We only use Hygeinilac anti-MRSA lacquers in our production.

## Unique Modern Designs

Our unique product designs help you stand out from the crowd.

## Tough Top Tables

Tables have a special heat & scratch resistant surface and polished edges.

## Express Stockholding

We hold products on stock for those quick supply requirements

## Re-cycling Scheme

We can take away your customers old furniture when delivering the new.

## Room Layout Plan Service

We can provide layout plans for furniture a nominal cost.

## Highest of design principles

Our design dept maintain the highest principles of ergonomics and practicality for this specific client group.

## Complete flexibility of specification

We can offer a complete bespoke specification service if required.
